THE REPLY FILED 08 March 2004 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.

The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Continuation of 5. does NOT place the application in condition for allowance because: The term "an outer cutting member" is not limited to the same outer cutting member as applicant is referring to. Furthermore, De Vries does show an element (22) provided at its other side with means for removably fastening at least one attachment to the element (34) as claimed. Moreover, the term "auxiliary part" states a purpose or intended use for the invention, it is not a limitation, but merely an indication of a possible use or the environment in which the invention operates. In addition, the examiner respectfully disagrees that element 33 in Ikuta is permanently connected. Figure 3 clearly shows means for removably fastening at least one attachment as claimed.
